

Entertainer's Secret Spray

Eindelijk in Nederland verkrijgbaar! Entertainer's Secret Spray (ESS), voor iedereen die veel van zijn/haar stem vergt en deze goed wil verzorgen!

In de VS is ESS ontwikkeld door een KNO arts die veel zangers en zangeressen in zijn praktijk had. Sinds 1984 wordt ESS daar veel verkocht aan zangers, zangeressen en iedereen die veel van zijn/haar stem vergt (logopedisten, docenten, etc.). ESS is geen geneesmiddel, maar helpt bij keel- en stemproblemen, zoals een droge keel en een 'rauwe' stem, vooral als die worden veroorzaakt door droogheid (vanwege rook, airco...). Door de speciale samenstelling van ESS blijven je keel, larynx en stembanden vochtig.

ESS is verpakt in een kleine flacon met pompverstuiver zodat je het middel makkelijk overal mee naar toe kunt nemen en gebruiken.

Bestellingen via <http://www.vocalservice.nl>

Gebruiksaanwijzing

- Verwijder eerst het beschermkapje van de dop (wit plastic stukje voor het spraygatje).
- 'Ontgrendel' de dop door te draaien aan het zwarte gedeelte in de dop. (schuif naar 'unlock')
- Spuit de spray in je keel en zeg tegelijkertijd 'Aaah'. Meer effectief is om kort en sterk in te ademen terwijl je spuit. Houd hierbij je hoofd ietsje schuin naar achteren. Je voelt een kleine tinteling in je keel. Daarna voelt het zacht aan. Je kunt het een beetje omschrijven als een 'suede laagje' dat in je keel zit.
- Je kunt de spray ook in je neus spuiten.
- Je kunt de spray net zolang en vaak gebruiken als je wilt. Vergelijk het met een lippenbalsem of handcreme. Zodra je weer last krijgt van je keel, kun je de spray dus gewoon weer inspuiten.
- Mochten je klachten na een paar dagen nog niet over zijn, dan is het raadzaam om een specialist of arts in te schakelen.

WHAT IS ENTERTAINER'S SECRET THROAT RELIEF?

Entertainer's Secret Throat Relief is a spray formulated to resemble natural mucosal secretions and designed to moisturize, humidify and lubricate the mucous membranes of the throat and larynx.

HISTORY

Entertainer's Secret resulted from a collaborative effort of KLI CORP and a Nashville TN otolaryngologist (ear, nose and throat specialist), Richard Quisling, MD, whose practice includes many singers and entertainers. When these professionals' voices are at less than their best, careers and very livelihoods are at risk. Our goal was to develop a product which could protect the vocal apparatus and restore and maintain voice quality and comfort without doing harm. After trying various ratios of a number of different ingredients, the final formulation of the product now known as Entertainer's Secret Throat Relief evolved. Once subsequent testing found it to be safe and effective, it was registered as a medical device by the FDA in the United States. The first sales took place in 1984 and it originally was called Moi-Stir 10.

WHAT DOES ENTERTAINER'S SECRET DO?

This unique, easy to use, non-medicinal throat spray:

- Supplements the throat's natural moisturizers
- Comforts, soothes
- Restores vocal quality Safely, Quickly, and Effectively

HOW DOES IT WORK?

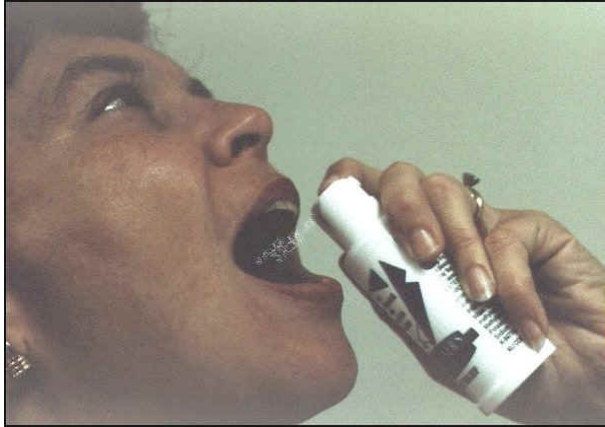

When sprayed orally or nasally into the throat, it adjusts the thickness and flow of the mucus in the sinuses and the passageways of the nose and throat. Introduction of this solution helps mend the discomfort of a dry, sore, scratchy throat and the annoyance of a hoarse tired voice - and works to prevent further occurrences. The nose and throat not only moisturize incoming air but they also serve as filtering mechanisms. Tiny hairs in the nose called cilia are constantly moving back and forth. They sweep away particulate matter - such as dust, smoke or other pollutants - so it can't enter the lungs. A moist passageway, lined with sticky mucus is a much more efficient filter than a dry one devoid of mucus. Entertainer's Secret is to dry throat and hoarse voice what lip balms are for chapped lips or what hand lotions are for skin that has become irritated or chapped due to exposure to detergents, solvents or chemicals. It is not a medication or a "cure" but it can help relieve throat and voice problems when dryness is a contributing factor.

WHAT DOES IT CONTAIN?

Entertainer's Secret is formulated to resemble natural secretions. Sodium carboxymethylcellulose, aloe vera gel and glycerin - each a proxy for a naturally secreted type of mucus (globular, strand and sheet) - are blended into a buffered, aqueous hypertonic solution. Unlike some other sore throat remedies, it does NOT contain numbing anesthetics, alcohol, antiseptics, analgesics, antihistamines, decongestants, anti-inflammatory agents or any other "medicinal" ingredient that can produce unwanted side effects. The improved honey-apple flavor imparts a pleasant mellow taste.

HOW DO I USE IT?

One can spray Entertainer's Secret into the throat while saying "Ahh", but a more effective way is to take a quick breath inward while spraying into the mouth.

To insure that the upper throat is reached, one should tilt the head back, aim the nozzle in the nostril and inhale sharply while spraying.

Any brief "tingling" sensation will be quickly replaced by a pleasant soothing feeling. It should be sprayed as often as necessary to eliminate dryness.

As is the case with hand lotion or lip balm, over-dosing is not a concern. If the dryness, irritation or hoarseness persists for more than a few days or if there are any signs of infection, a physician should be consulted.

WILL IT HELP MY ALLERGIES / SINUSES?

Allergy and sinus complaints often involve congestion and discomfort because of very thick mucus.

Spraying Entertainer's Secret helps to thin out or make this material less viscous. This lets the mucus flow as it should which keeps the underlying membranes moist and healthy. Although Entertainer's Secret Throat Relief is not a specific remedy for these problems, it can reduce the symptoms of discomfort.

I'M NOT AN ENTERTAINER; WHY SHOULD I BE INTERESTED?

While we are flattered to number many famous people among our customers, we are equally pleased that it has been helpful to hundreds of teachers of many different subjects at every academic level, choir members, salespersons, members of the clergy, and business and professional people all around the world. Anybody who relies on their voice for work or fun should have a bottle in their medicine chest, supply cabinet, briefcase, car or desk alongside other personal care products. It's a very inexpensive way to insure your very best vocal quality. At one point it was a "secret" for people in the entertainment field; no more!

For anybody who vocalized- teachers, speakers and especially singers- here's a tip from voice professionals: Always drink plenty of water to achieve and maintain systemic hydration. This helps deliver moisture to the dry sensitive membranes in the vocal apparatus "from the inside out". And also spray Entertainer's Secret in to your throat, via the mouth and the nostrils, to supplement re-hydration of the area "from the outside in". If you get that part of the anatomy nice and moist, discomfort and vocal distortion often can be remedied and if you keep it that way, you can prevent a lot of unpleasantness from recurring.

WILL IT MAKE ME BETTER IN MY JOB?

It surely can't hurt. An unpleasant voice is rarely an occupational advantage, whatever one does. Discomfort seldom improves performance.

INFORMATION FOR HEALTHCARE PROFESSIONALS

The final formulation was established after considerable experimenting with fiberoptic visualization and computer-generated sonogram technology that records vibrational characteristics and changes in vocal quality. The product's "clinical" function is to supplement and adjust the viscosity of the natural secretions which keep the throat and vocal apparatus moist and healthy.

People who use (abuse?) their voices longer or more aggressively than usual while speaking or singing probably comprise the majority of the individuals who can benefit from Entertainer's Secret. But within the healthcare community, it also has been found helpful for head and neck radiation patients, for speech pathology patients, for people with Sjogren's Syndrome, for people who have had laser surgery (e.g. the Laup procedure) and for others who complain of or are handicapped by throat dryness.

"DOES THIS STUFF REALLY WORK?"

ESS wordt binnenkort ook in Nederland gevalueerd. Hieronder volgen wat reacties van gebruikers uit Amerika.

Provider:

Some brief editorial asides:

" We often get this question: It would seem that anything other than a very positive answer from the company who makes the product would be highly unlikely. So it can come as a surprise when we routinely point out that Entertainer's Secret is not a cure-all: For example, if the "sore throat" is, in fact, a streptococcal infection, only an antibiotic and/or time can cure strep throat. Also, resolving organic or structural problems like nodules or nodes on the vocal apparatus might require time, vocal rest and maybe even surgical intervention. Entertainer's Secret can provide symptomatic help for these and other complaints but it is not a panacea."

... I perform over 300 shows a year and swear by your product. I was introduced to Entertainer's Secret by (of all people) Weird Al Yankovich one night when we shared a stage and a horrible cold and the only thing that got him through was his "secret". I am the guitarist and one of about 25 vocalists in an Ensemble called Holiday Express, an all volunteer group of professional musicians who each Christmas perform for those less fortunate in Aids and Homeless Shelters, Cancer Care Centers and Behavioral Institutes. . . . [From New Jersey]

I just want to say that this email can be used as a testimonial as well. I am the lead singer of a Rock-N-Roll band, and I came upon this product by accident really.. when a woman I work with saw it on a shelf in a pharmacy, and asked if I've tried it. I've battled dry throat & hoarsness quite a bit, doing shows every weekend for a couple months, and even lost my voice at one point in time. Not good for the frontman..hehe!! Anyway, I picked up a bottle of "Entertainers Secret" and surprisingly enough...This stuff really does work!! I was back in action within a few weeks, and still rockin' as of today!

I have been a singer for over 17 years. This product is a dream come true if you are a performer. Entertainer's Secret is a throat spray that does not numb your vocal cords, but helps them work to their fullest potential. I have been using this product over 5 years. It has been a great help to my success. Sincerely, David McBee
My Web sites: www.dsms shock2001.com & www.lostgoldrecords.com

... THIS STUFF IS GREAT!! I CAN PRODUCE APX. 3 ADDITIONAL NOTES HIGHER AND LOWER ON MY RANGE WITH REGULAR USAGE OF YOUR PRODUCT. . . [From a salesman / amateur singer in Florida]

... I have a very serious throat problem called GLOSSOPHARYNGEAL NEURALGIA. This was caused by the Chicken Pox and is a Post Herpetic Neuralgia pain syndrome. It has caused my Nerve in my throat to hurt when I speak, Sing or anything requiring me to use my voice. It has also destroyed the natural moisturizing process the body uses to lubricate the larynx and sinus cavity. This is the only stuff in the world I have ever found to work and provide incredible results and I have tried everything. It burns at first because I use about 4-6 sprays in each nostril and have learned to tilt my head and moisturize every part of my nasal cavity. This product is so wonderful. there is no cure for my problem but at least there is something that helps me drastically, ENTERTAINER'S SECRET...

... I am a member of Sweet Adelines International and located your product from Chris Beatty's website. I have been using it for almost a year now in times of vocal discomfort and I LOVE it!! . . . [From a California Mom]

...Your product got me through the allergy season this past fall with thick, dry chords, and helped make my New York City Opera debut a huge success! Thanks. It , Entertainer's Secret, generated a lot of attention in my little corner back stage.... everyone wanted to know what I kept spraying in my throat! . . . [From a opera soprano]

... A singer from Tulsa, recommended this product to me. She let me use it a couple of times, and I've found it to be a life-saver. Although it didn't give me back my singing voice during a pageant last Christmas, it did allow me to do my speaking parts even though I had *totally* lost my voice. It has also smoothed the rough edges for me at other times when I was not nearly so desperate. Thanks for developing such a wonderful product! . . . [From a male graduate student in Oklahoma]

... I have been a professional speaker since 1978, full time since 1986. As my livelihood rests on the sound of my voice I must admit that I am terrified at the thought of sometime loosing my voice. I have had several professional speaking colleagues who have lost their ability to speak because they did not care for their vocal instrument! I had heard about ENTERTAINER'S SECRET for years from professional actors and singers and I finally found it in the late 80's. I can not begin to tell you the difference it has made in my life.

If my voice starts to fade or even starts to feel a tickle I immediately use ENTERTAINER'S SECRET and almost immediately I feel and hear the difference. I carry it with me on stage in case of emergencies. It would be foolish for any actor, singer, speaker, preacher or anyone who needs to treasure their voice not to have this prized "SECRET!" I tell all of my colleagues about your product. You have a customer for life! Thank you!

Your Meeting Partner,
Michael Scott Karpovich, Certified Speaking Professional

"I had a show to perform. I developed bronchitis 48 hours before the fact. With this condition, there was much stress on the vocals from coughing, clearing of throat, etc. I did a search on yahoo for vocal-dry throat. Your product came up first on the search and I was amazed to learn you were within 15 miles of my location-Indiana. I was desperate for intervention. I had not performed live in several years and I did not want my performance to be sabotaged by an illness. I used Entertainer's Secret for 36 hours prior to performing. I was amazed at the productive results. It saved my voice and my reputation. I will continue to use and promote your product. Thank you!"

Sincerely,

Greg Guzman Indianapolis, IN <mailto:gguzman@iei.net>

I am an MC and lead singer for the Alexandria Harmonizers - 4-time International Barbershop Chorus Champion. The product has been very helpful - surprisingly so, as a matter of fact. I just didn't expect such a basic idea to be of such value. Thanks for making Entertainer's Secret available!

I have used "Entertainers Secret" for about 6 years after being introduced to it at a Music Conference. Not only does it keep my throat moistened while singing, it's the best thing I've ever used for keeping my whole mouth, throat, etc. moistened during severe sinus attacks! Love it!

Comments: Very helpful both in live performance and the recording studio. I have noticed a significant positive difference -- thank you!

I just wanted to send you a note to thank you for manufacturing this product. I have suffered from a throat disorder for the past 11 years, and have taken every medication known to man to try to alleviate this problem, with no success. The best way I can describe it is to say it was like having a sheet of cardboard at the back of my throat. There was always blockage between the back of my nose and > throat, and I couldn't do anything to dislodge it. I came across your product by accident and sent away

for it, not really believing it would do any good. I have been using it for about 2 weeks now, a few times a day, and it is providing me with the only relief I have had since the problem first surfaced. The spray is not eliminating the problem, but it is loosening the congestion for hours at a time. This is the first time I have felt good in years, and the first time I have been able to get up in the mornings without coughing violently for almost an hour. I don't know if you market to non-entertainers, but I am sure there are a host of people out there with the same kind of problem I have who would be very grateful to know that such a product exists. Again, thank you so much, and please don't stop manufacturing this product!

The "Entertainer's Secret" is very helpful. I live in a dry climate, and I snore at night. I have had voice problems for the last five years.

Now, a few squirts periodically through the day has raised the quality of my voice--and my life. Thank you very much. Michael

Got it on Friday, just in time for my show. Let me tell you man, this stuff rocks!!! Thank you very much for getting it to me! This stuff really works well!!! I wasn't so sure it would work when i bought it, but I'm a believer! You'll be getting another order from me soon!! Thanks again!! Jarrett

Comments:

I have NEVER trusted a product as much as yours!!! I lead sing in a late 70's all 80's showband and we are booked through next year! I LOVE this stuff!!!

I am a full time musician who regulary will sing for seven hours in one day. I also have high blood pressure. My doctor accidentally prescribed a medication for me that encouraged dryness in the throat and coughing. I didn't know why this was happening and I didn't know what to do. By the time the coughing set in it was too late for water to help me anymore. I searched the web for info and found Entertainer's Secret. I immediately ordered 6 bottles. To my shock not only was my voice back to normal but actually BETTER... the smoky bars and night after long night of singing were no longer a problem even though I had a medical reason to be coughing. I later changed blood pressure medication but still use Entertainer's Secret every night. I keep a bottle in my car, my home studio, guitar case, coat pocket....everywhere. Thank you, your product has definitely helped my career.

Well, I just ordered 6 more bottles. I hate to sound like a commercial, but I am sold. My throat and voice haven't felt this alive for some time. Your hand lotion analogy is perfect! Your product is EXACTLY what I was looking for!!!

I just wanted to drop a line to the KLI CORP to let you know that Entertainers Secret is GREAT! I had to sing at a wedding the other day and I used the spray and let me tell you, I have never sang better! It was amazing!

I've been singing since I was 13 years old and I have never heard such clarity in my voice and relaxed vocal chords! Even my family and friends couldn't believe how great I sound.

Thanks to your product I never have to worry about an irritated throat again! What a relief! God bless Entertainers Secret!
